THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRI A. RAJA): (a) to (c) There is no increase in the death rate of children in the country. The Child (0-4) Mortality Rate (CMR) for the latest available three years as per the Sample Registration Survey (SRS), Registrar General of India (RGI) is as under:

Year	CMR
1996	23.9
1997	23.1
1998	22.5

Under the RCH Programme, immunization against six vaccine preventable diseases, facilities for appropriate management of acute respiratory infectious, Oral Rehydration Therapy (ORT) for management of diarrboeal diseases; and essential newborn care services are provided. Promotion of exclusive breastfeeding and appropriate complementary feeding practices, and prophylaxis against Vitamin-A and Iron-deficiencies are also being provided to improve the nutritional status of children.

Schemes have been launched in weaker districts to improve the access of the people to Reproductive and Outreach Scheme, RCH Camps, Dai Training and Border District Cluster Strategy Project which have been undertaken to effect further reduction in child mortality.
